

Low Light Shooting Instructor Certification Course

September 28-30, 2021 / Madisonville, KY
Hosted by Hopkins County Sheriff's Office

\$525.00

This 3-day / 24-hour instructor certification course is designed to teach firearms instructors the various principles and tactics associated with the use of illumination tools when deployed with a handgun or shoulder-fired weapon system. Most basic firearms instructor courses usually dedicate about 4-5 hours to low light shooting and only conduct basic low light drills. This instructor course goes much further in depth. Emphasis will be placed on developing live-fire drills that enhance student's ability to learn both hand-held techniques and weapon-mounted systems for both handguns and shoulder-fired weapons. The concepts taught in this course apply to ALL weapon disciplines for creating better training.

This course is approved by the NRA LE Division for 24 hours of continuing education credit.

NOTE: *This course requires the use of carbines / rifles. Students don't need to be certified as a rifle instructor to attend. However, students must have successfully completed a rifle operator certification course of 16+ hours to attend this course.*

Topics Covered:

- Case law for low light training
- Basic anatomy of the human eye
- Technical specifications of illumination tools
- Tritium & fiber optic sights
- Reflex sights / red dot optics
- Variable powered scopes
- Projected / visible laser systems
- Night vision devices and IR laser systems
- Principles of low light tactics and engagements
- Pistol drills for both hand-held and weapon-mounted lights
- Rifle drills for both hand-held and weapon-mounted lights
- Weapon manipulations in low light
- Line drills vs. solo drills
- Developing appropriate drills to emphasis low light skills
- And more...
